

# In An Emergency, Take Your Pets!

You may not be allowed to return to rescue them.

## **THINK AHEAD. HAVE A PLAN IN PLACE:**

### **MAKE AN EMERGENCY KIT (see reverse)**

- One kit per pet
- Keep near an exit for easy Grab-and-Go

### **Take Photos of Your Pet With You and/or Your Family**

- Photos can prove ownership and reunite you with your pet
- Keep copies in wallet, disaster kit, and stored on phones
- Give copies to loved ones who live outside your area

### **Microchip Your Pet**

- Most effective way to reunite pets with families
- Update microchip registration when you move, change phone numbers, or get a new emergency contact

### **Start a Buddy System**

- Exchange keys and disaster plans with a someone who can evacuate your pets if you are not home during a disaster
- Keep your buddy current regarding your pet's information and your emergency contact info

### **Identify Evacuation Locations**

- Identify shelters that will accommodate pets; consider pet-friendly hotels and family
- Store phone numbers and addresses in your disaster kit and on your phone
- PRACTICE loading and unloading pets into the carriers and your vehicle.

## **When You Go - THEY Go!**

**Be prepared to protect your pets in an emergency.**

**Do not put your pets' lives, your life, or other rescuers' lives at risk**
