

If you go to the hospital, what will happen to us???

Pet owners are advised to have a COVID-19 plan for their pets

- You should have a plan in case you are unable to care for your pets.
 - If you know someone who lives alone with their pet, reach out and ask if you can be their back up.
- 

As COVID cases increase across the country, let's make sure our pets and our friends are cared for!

Name _____ Date _____
